About Me

When it comes to assisting clients, customers or collaborating with team members, I succeed on making a positive impression and creating a favourable impact.
I love coordinating efforts and creating a collaborative environment. Adapting to new surroundings is something I do fast.
What fuels me is the eagerness to learn new stuff, as I enjoy the process of it, and using that new knowledge to solve problems.
I am commited to being punctual, never running behind schedule. I take my responsibilities seriously and am committed to both personal and professional growth.

In a couple of words, I am *teachable*, *quick*, *punctual*, *collaborative*, *assistive* and *adaptable*.

Projects

Marketing Agency Website | *Wix, AWS, SMTP Setup, UI/UX, DNS Setup, SEO, Project Lead, Enhanced Email Spoofing Protection*   Mar. 2023 – May 2023
